Team Members

Technical Capability The capability for a Periscope Detection Radar (PDR) capability is a key operational need for aircraft carriers due to the risks inherent in operating in littoral waters and carriers' vulnerability to submarine attack.

ELLWEST KG

A: Ag. Chemical symbol for element silver. Air Gap - The shortest straight line air distance between two conductors under voltage.: Annular Ring - The pad area that remains after a hole is drilled through the pad . Analog circuit - A circuit in which the output varies as a continuous function of the Input. ANSI - American National Standards Institute.

Paper Glossary | Graphic Communications

Basis weight: The weight of a ream (500 sheets) or other standardized measure of a paper. Calculations are

based on different sheet sizes, because paper mills produce the larger-size sheets and then ship them to converters, who cut the sheets to standard letter or legal sizes.

Testing Guide Introduction

The OWASP Testing Project has been in development for many years. The aim of the project is to help people understand the what, why, when, where, and how of testing web applications. The project has delivered a complete testing framework, not merely a simple checklist or prescription of issues that should be addressed.
